

Alliance of Wound Care Stakeholders’ Wound Care Evidence Summit

April 1-2, 2020
Washington, D.C.

What clinical evidence do payers need to cover your product or procedure?

The Summit offers unparalleled access to payers, policymakers and regulators to answer this question, specifically focusing on how we can collaboratively tackle wound care evidence and other challenges impacting coverage.

Evidence

Understand the current state of wound care evidence:

- ❖ How evidence needs are evolving
- ❖ Gaps and next steps in evidence development
- ❖ Clinical trial design, endpoints, registries
- ❖ How evidence issues impact coverage

Coverage

Learn from public & private payers:

- ❖ How evidence is evaluated in coverage decisions
- ❖ How coverage policies are developed
- ❖ Evolving evidentiary expectations necessary for positive coverage policies

Connection

Interact with leaders from:

- ❖ Private & commercial payers, such as Cigna, Aetna, Humana & UHC
- ❖ CMS
- ❖ FDA
- ❖ NIH
- ❖ AHRQ

Who Should Attend?

- ❖ CEOs and chief medical officers, as well as reimbursement, government and regulatory affairs staff from physician specialty societies, associations, clinics, manufacturers and businesses in wound care
- ❖ Medical directors of wound clinics and other facilities where wounds are treated
- ❖ Medical directors and researchers at manufacturers

To keep the meeting small and interactive, space is limited.

Action-oriented breakout sessions will enable attendees to identify action steps and collaboration opportunities moving forward.
